

mediatrade

Welcome to the
colourful world of
Mediatrade.

Our focus is on providing
a quality print service that is
both economically and
socially sustainable

mediatrade

IF YOU CAN IMAGINE IT, WE CAN CREATE IT.

Since inception Mediatrade has earned an enviable reputation for providing high quality printing solutions at very competitive prices. We have a proven dedication to customer service and offer a complete package throughout the spectrum of corporate printing needs.

Mediatrade offers a complete solution, from concept and design right through to logistics and final delivery. By leveraging our buying power with our extensive print and production knowledge we are able to provide you with the best solution at the right price.

Through our commitment to ethical and honest business practices we have build solid relationships within the printing industry and with our customers.

We are passionate about finding a solution for whatever printing and production challenge is thrown at us, allowing us to access the world of options available to us and narrowing it down to a right fit solution for our customers.

THE POWER OF PRINT

In this digital age new print technologies are constantly being brought to market, providing ever more creative possibilities and technical improvements. Mediatrade has the up-to-date technical expertise to harness these new opportunities into a powerful print solution.

Through our extensive buying power and industry credibility we offer our clients a total print and logistics solution, with direct control over the outcomes and a best fit solution for their print requirements.

We do more than simply supply print, we manage the printing inventory, cater for unique needs while managing expense. We offer solutions that improve quality, shorten delivery times and provide tangible cost savings.

As a print specialist, we manage the entire process of print and logistics - from design to print, procurement, production, warehousing, delivery and cost reconciliation.

The breadth of press and finishing capabilities that we offer are unrivalled - we are able to select the right machine and skillset to produce almost any type of print work – and choose the most appropriate combinations, cost efficiently.

We are thus able to bring the best talents, machines and capabilities into a total solution.

The results will speak for themselves - we're confident of exceeding your expectations.

The printing press, invented by Johannes Guttenberg in 1440 is considered by many to be the most important invention of all time.

OUR SERVICES

Origination

Mediatrade offers a full design service, from brief to finished art including art direction, photography, copywriting and editing.

Prepress

Mediatrade provides a prepress service to turn your designs into print-ready material.

Lithographic Printing

Litho is the mainstay printing technique at Mediatrade. This sheet-fed process is capable of producing high quality full colour and spot colour printing using a wide range of papers and finishes.

Point of Sale

Mediatrade offers semi-permanent and permanent point of sale manufacture, utilising a wide variety of processes including cardboard engineering, screen printing, welding, laser cutting, digital printing among many more...

Digital Printing

Digital printing is a fast-growth technology and by keeping up to date we are able to offer the cutting edge of digital printing technologies for short-run, large

format
and
printing onto
a wide variety of
substrates.

Pharmaceutical Packaging

Mediatrade offers a wealth of expertise and knowledge in this specialised field. We have established a standard operating procedure that provides assurance of the highest quality printing service from warehouse to delivery. Each and every job is subjected to our quality control assesment before delivery to the client.

Screen Printing

Screen printing is a traditional printing method commonly used for textiles and cardboard.

Web Printing

We offer a flexible, high quality magazine production service using the latest web-printing technologies. Fully automated production processes and high speed presses ensure fast turnaround times, with inline finishing delivering a finished product straight off press.

We are able to cater for a wide range of paper stocks and sizes with special finishes including UV varnishing, embossing, foiling and laminating.

Uv Flexo Self-Adhesive Labels Printing

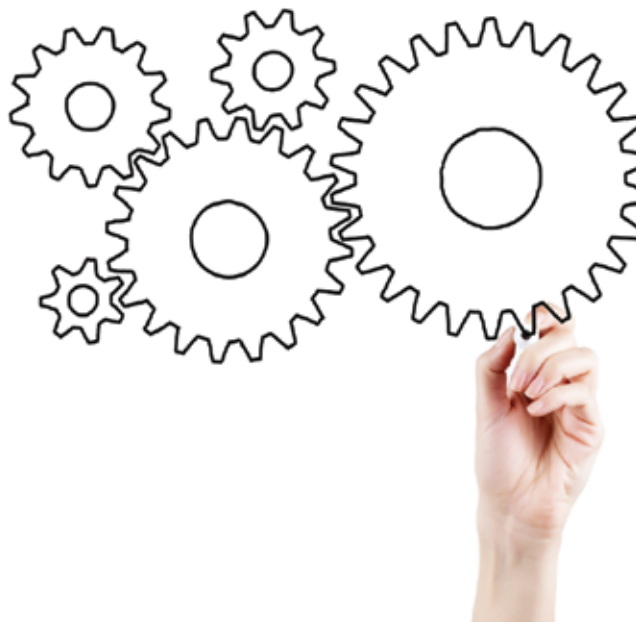

We supply high quality UV flexo self-adhesive label that utilise the latest label printing techniques for use in a wide variety of markets including the wine, cosmetics, petro-chemicals, food and beverage industries.

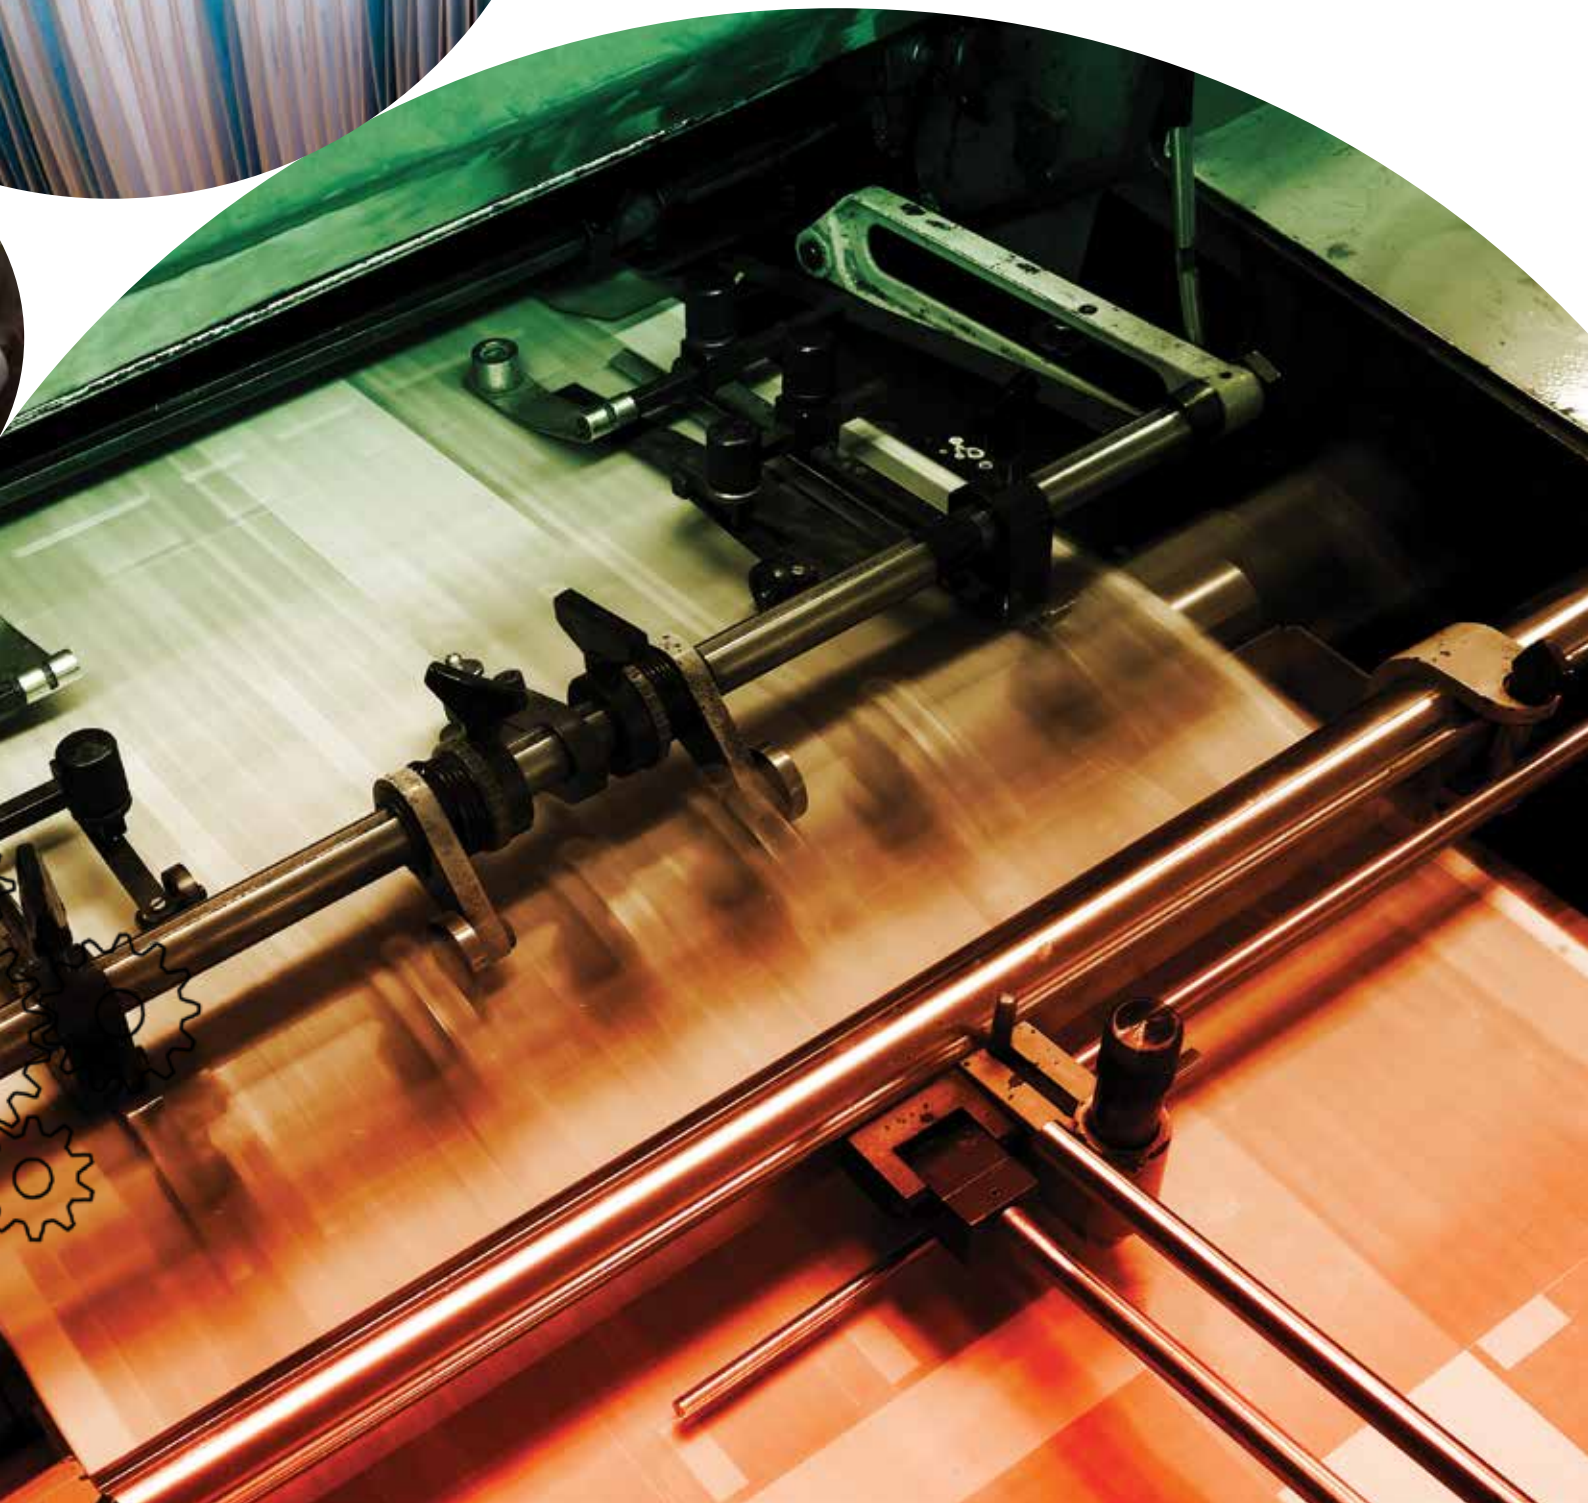

Our labelling system supports inline finishes including hot foiling, cold foiling, screen printing, laminating, embossing, UV varnish and die-cutting.

Premium label finishes includes holograms, 'torn' edges, metal foil effects, 'back printing' and can be printed onto specialised papers including cast coated, semi-gloss, uncoated, clear, metallic, polypropylene and polyethylene in clear, white and metallic formats, innovative uncoated 'ICE' with unique ice bucket performance and the TreeFree environmentally friendly option.

A variable data facility is available for labelling.
