

GOD IS A DREAMER

He had 'a dream' in His *heart*,
a beautiful home for a

father and his family.

This was the reason for creation. He imagined and envisioned a place so beautiful, so rich in all kinds of treasures, deposits of silver and gold, uncounted varieties of metals, precious stones, and resources that would respond to the touch of His children. He covered the face of the earth with mountains, valleys and ravines. He clothed the countryside with a garment of green intermingled with beautiful coloured flowers. The mountainsides He covered with giant forests, whose trees are filled with singing birds and droning insects. In His heart were the fish of the sea and animals of every kind.

In His heart was a dream.
