

THERE IS A KING IN YOU

Unfortunately, many Christians have been corrupted by their natural environment, and so have lost the understanding of their unique nature. It's like the story of the baby lion that grew up among the sheep. The cub adjusted so much to its new environment that it forgot that it was a lion. One day a lion visited the river where the sheep and cub were drinking water and roared. All the sheep ran away, including the ignorant cub. This continued for some time until one day, the cub saw its reflection in the river while drinking and realised it looked exactly like the lion! Subsequently, the next time the lion roared at them, the cub refused to run away but rather ran excitedly to the lion who in turn welcomed it into its midst. The cub crossed over from fear to boldness by understanding its true nature.
